

QAboutWidget::QAboutWidget

```
graph LR; A[QAboutWidget::QAboutWidget] --> B[QAboutWidget::showAboutOpen<br/>CVWindow]; A --> C[QAboutWidget::showAboutQt<br/>Window];
```

The diagram illustrates a call to the constructor `QAboutWidget::QAboutWidget`, which is shown in a grey box. Two blue arrows originate from the right side of this box and point to two separate static method calls. The top arrow points to `QAboutWidget::showAboutOpen CVWindow`, and the bottom arrow points to `QAboutWidget::showAboutQt Window`. Both target boxes are white with black borders.
